

Hey-ho team (The Free Democratic Republic of Altair). So. [Hub crawl](#). A photo scavenger hunt. So what do we need? Here's a partial list:

- Digital Cameras. Pretty self explanatory. Please make sure you camera is fully juiced up, and has lots of space for photos, Maybe empty it out first.
- Water. It might be hot, it might be energetic. You will probably get thirsty.
- Cell phone/FRS radios. Team's gotta stay in touch, and we might need to split up. See above note on being juiced up.
- Pocket change. It looks like we won't need to take the T anywhere, but you never know.
- Do we want/need a laptop to dump the pictures off to/upload to flickr?
- At least one of you will have a smartphone to monitor the hubcrawl twitterfeed, yes? Because I am still an impoverished geek. Who is trying to buy a house, not an iPhone. Must remind self of this. (Truss and Anne are properly equipped here.)

Y'all should be able to edit this page as necessary...
